QUESTION 1

The system default for the amount of time a Business Process (BP) remains online in the system is set to five days. How can that value be overridden?

- A. Update noapp.properties.
- B. Modify the lifespan setting for a BP.
- C. Update with the Performance Tuning wizard.
- D. Create a new Retention Service configuration.

Correct Answer: B

QUESTION 2

A mapping specialist is testing a map that has been created. For some reason an extended rule on an output element is not executed. What is the most probable reason?

- A. The element is not in a group.
- B. There is no link to the element.
- C. Extended rules are not executed on the output side.
- D. Extended rule on the input side ran nullifying the output side.

Correct Answer: B

QUESTION 3

IBM Sterling B2B Integrator (SBI) is installed with a LDAP connection to allow users to log in using their username/password stored in the LDAP server. A user is created in SBI as a local user and the InternalUser password policy is specified. The InternalUser policy states that the password has to be changed every 30 days. After 29 days the SBI security administrator deletes the InternalUser policy from the system. When the user logs in two days later, will the user be prompted to change the password?

- A. Yes, because of the configuration of the original password policy.
- B. No, because the policy is deleted so the user has no password policy.
- C. The user will not be logged in because there is no valid policy specified.
- D. No, the policy is irrelevant since the password is managed by the LDAP server.

Correct Answer: B

QUESTION 4

A developer needs to export all versions of a Business Processes (BP). Which two formats can be selected within Resource Manager for exporting objects from IBM Sterling B2B Integrator (SBI)? (Choose two.)

- A. WAR File (.war)
- B. Install Bundle (.jar)
- C. Text Document (.txt)
- D. XML Document (.xml)
- E. Compressed file (.zip)

Correct Answer: BD

QUESTION 5

A company would like to maintain communication adapter availability in the event of IBM Sterling B2B Integrator (SBI) being shut down for maintenance. What can be deployed to maintain adapter communications?

- A. Service Group
- B. Clustered Node
- C. Perimeter Server
- D. Adapter Container JVM

Correct Answer: D
