Provides an interface containing demonstrations, webinars, and supporting collateral
Provides expert support to test, demonstrate, and benchmark the solution
Provides detailed information about supported HP storage product configurations
Provides documentation and access to forums and training

HP Helion OpenStack Community Documentation web

Provides an interface containing demonstrations, webinars, and supporting collateral
Provides expert support to test, demonstrate, and benchmark the solution
Provides detailed information about supported HP storage product configurations
Provides documentation and access to forums and training

Correct Answer:

HP Solution Center

	▼
Provides an interface containing demonstrations, webinars, and supporting collateral	
Provides expert support to test, demonstrate, and benchmark the solution	
Provides detailed information about supported HP storage product configurations	
Provides documentation and access to forums and training	

HP Solution Demo Portal

	▼
Provides an interface containing demonstrations, webinars, and supporting collateral	
Provides expert support to test, demonstrate, and benchmark the solution	
Provides detailed information about supported HP storage product configurations	
Provides documentation and access to forums and training	

HP SPOCK

	▼
Provides an interface containing demonstrations, webinars, and supporting collateral	
Provides expert support to test, demonstrate, and benchmark the solution	
Provides detailed information about supported HP storage product configurations	
Provides documentation and access to forums and training	

HP Helion OpenStack Community Documentation web

	▼
Provides an interface containing demonstrations, webinars, and supporting collateral	
Provides expert support to test, demonstrate, and benchmark the solution	
Provides detailed information about supported HP storage product configurations	
Provides documentation and access to forums and training	

## QUESTION 4

Which statement is true about HP OneView?

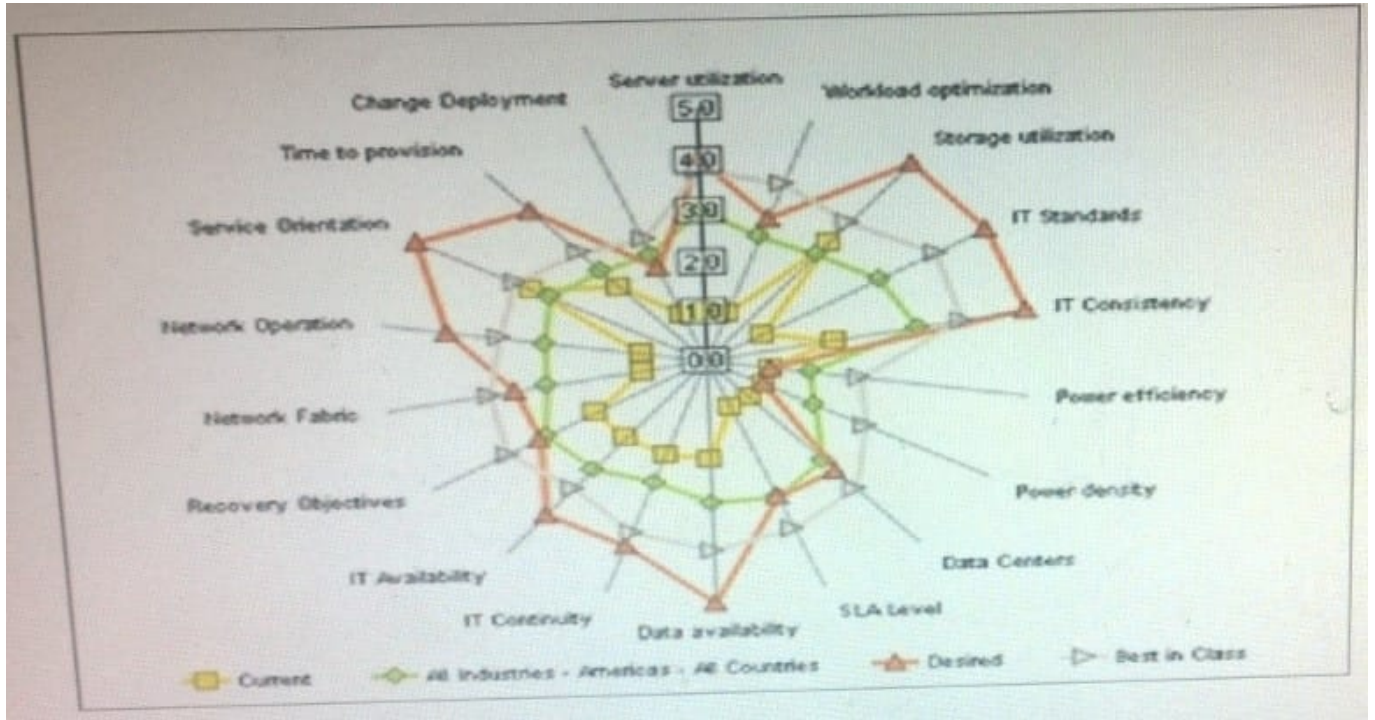

- A. It enables resources to be dynamically moved between private cloud resources and different public cloud resource providers.
- B. It provides a management platform that offers an integrated workspace that allows IT teams to capture processes, configurations, and best practices via a software-defined approach.
- C. It provides proactive notification of component failure alerts on public cloud networks and allows resource providers to configure policies to execute scripts, forward events, and notify users of failures.
- D. It is an open-source implementation for system administrators to manage heterogeneous servers and storage to maximize system up-time and health.

Correct Answer: B
