QUESTION 2

A customer has a virtualized environment but has not implemented any cloud services. Is this customer qualified for an HP Helion solution?

A. This customer is qualified, particularly if the company is trying to increase service automation

B. This customer is not qualified because the virtualized environment provides the same benefits as cloud services

C. This customer is qualified, particularly if the company is trying to increase its investment in capital expenditures

D. This customer is not qualified because HP Helion is only targeted at customers who have already begun to implement cloud services.

Correct Answer: C

QUESTION 3

What is an accurate description of "brokering" in an HP CloudSystem environment?

A. Hosting IT service is sourced from multiple providers.

B. Resources are increased to handle peak loads.

C. Application services access is provided through multiple resource pools.

D. Services are made available via a network.

Correct Answer: C

QUESTION 4

Which statement is true about HP OneView?

A. It can be imported as an Open Virtual Format file

B. It can be installed on a physical or virtual server.

C. It requires QpenStack APIs.

D. It can provision Microsoft Windows or Linux operating systems.

Correct Answer: D
