QUESTION 1

A customer is experiencing intermittent storage connectivity issues in their BladeSystem environment. After collecting the log files from the external storage system and the interconnects, you suspect the problem is in the Onboard Administrator configuration.

Which step should you take next in the troubleshooting process?

- A. Reset the Onboard Administrator to factory defaults.
- B. Develop an optimized action plan.
- C. Escalate the problem.
- D. Run the First Time Setup Wizard.

Correct Answer: B

QUESTION 2

A customer recently lost data due to a failed disk drive in their BL460c Server. What should you recommend to minimize data loss in case of disk drive failure in the future?

- A. Upgrade to RAID 0.
- B. Upgrade to RAID 1.
- C. Upgrade to RAID 5.
- D. Upgrade to RAID 0+1.

Correct Answer: C

QUESTION 3

Which server blade series is optimized for HPC clusters?

- A. BL2xx Series
- B. BL4xx Series
- C. BL6xx Series
- D. BL8xx Series

Correct Answer: A

QUESTION 4

The administrator password for the Onboard Administrator (OA) module has been lost. How does the system administrator recover this password? (Select three.)

- A. select the factory reset option during reboot
- B. press and hold the OA reset button for 5 seconds
- C. connect the computer with terminal emulator to the serial port of the active OA
- D. remove the OA module, close the reset jumper for 5 seconds, reseal the module
- E. boot the system into Lost Password mode
- F. connect to the OA via SSH using the service IP address

Correct Answer: BCE

QUESTION 5

A BL490c G6 processor has been replaced. The customer wants the new processor to be tested for several hours before placing the server blade back in service. In order to accomplish this, what should you do after loading HP Insight Diagnostics Offline Edition?

- A. Choose an unattended quick test with a time limit.
- B. Choose a complete test with a time limit.
- C. Run an unattended quick test with a time limit.
- D. Run an unattended custom test with a time limit.

Correct Answer: D
