**QUESTION 1**

A customer purchased a c7000 blade enclosure, fully populated with blade Gen8 servers and Care Pack services. Several days later, the customer purchased an HPZR30W, an HP UPS R8000/3, and two iPDUs.

Which new items will be covered in the Care Pack services? (Select two.)

- A. both iPDUs if they are mounted in a different rack from the c7000
- B. the ZR30W (30 inch) monitor put on top of a rack.
- C. both iPDUs if they are mounted in the same rack as the c7000
- D. the UPS R8000/3 if it is mounted in another rack
- E. the UPS R8000/3 if it is in the same rack as the c7000

Correct Answer: AC

---

**QUESTION 2**

A customer is experiencing intermittent storage connectivity issues in their BladeSystem environment. After collecting the log files from the external storage system and the interconnects, you determine the problem is in the Onboard Administrator configuration.

Which step should you take next in the troubleshooting process?

- A. Implement preventive measures.
- B. Initiate the replacement procedure of the midplane.
- C. Plan the repair procedure.
- D. Verify if the solution is covered by a carepack.

Correct Answer: C

---

**QUESTION 3**
