**QUESTION 1**

What is the point at which an impulse is transmitted from one neuron to another?

- A. Nerve center
- B. Synapse
- C. Dendrite
- D. Terminal plate

Correct Answer: B

---

**QUESTION 2**

In order to prescribe controlled substances a medical practitioner needs a license from \_\_\_\_\_.

- A. The FDA
- B. The DEA
- C. The FBI
- D. The AMA

Correct Answer: B

A license from the DEA is required for all persons prescribing controlled substances.

The license lasts for three years (though it can be taken away at any time for malpractice) and costs \$731.

---

**QUESTION 3**

What step should the medical assistant take first if a medical assistant managing patient payments learns that a patient's check has been returned due to insufficient funds?

- A. Call the patient
- B. Call the police
- C. Notify the collection agency
- D. Call the patient's employer

Correct Answer: A

---

**QUESTION 4**

The pharmaceutical abbreviation "qid" means \_\_\_\_\_.

- A. every hour
- B. every day
- C. four times a day
- D. every week

Correct Answer: C

---

## QUESTION 5

Patient details should be updated as necessary every \_\_\_\_\_.

- A. Year
- B. Month
- C. Time the patient visits
- D. Six months

Correct Answer: C

Best practice in recordkeeping is to check with the patient every time they visit the office that all their personal details (address, telephone number, email, next of kin etc.) are up-to-date.

This should minimize the chance of important information going astray.
