QUESTION 1

If a user forgets his/her PIN and still has possession of his/her token, an Administrator should verify the identity of the user and then

- A. Clear the user's old PIN.
- B. Disable the user's token.
- C. Assign a new token to the user.
- D. Assign a temporary Fixed Passcode.

Correct Answer: A

QUESTION 2

Allowing only certain users to authenticate on a given Authentication Agent ("Restricted" Agent) is accomplished with

- A. Agent APIs.
- B. User Policies.
- C. Node Secrets.
- D. Group Associations.

Correct Answer: D

QUESTION 3

Settings for the Lockout Policy affect which of the following?

- A. User attempts to log in to the Self-service console
- B. Administrator login to the RSA Operations Console
- C. User authentication attempts using an RSA SecurID token
- D. User login to a Windows environment with Windows Password Integration

Correct Answer: C

QUESTION 4

The RSA SecurID Software token calculates tokencodes using the time value

- A. Of the Remote Access or VPN server computer.
- B. Obtained from the Authentication Manager instance.
- C. Obtained from the Authentication Agent host computer.
- D. Of the host device on which the software token is installed.

Correct Answer: D

QUESTION 5

If multiple users request On-demand Tokencodes but are not receiving them, what would be an appropriate action to take?

- A. Verify that the users are not in New PIN mode.
- B. Verify that SMS or SMTP services are configured correctly.
- C. Ensure that the token codes assigned to the users have not expired.
- D. Verify that the user's receiving device is set to the same time zone as the Authentication Manager instance.

Correct Answer: B
