Correct Answer: C

---

**QUESTION 2**

For which two of these purposes can you use model views?

- A. To create analysis views for specific slices of data
- B. To assign data grants to specific slices of data
- C. To filter the results when tracing allocations or performing rule balancing
- D. When mass editing rules, to limit the edits to a subset of the data
- E. When copying POVs, to limit the copy to a subset of the data

Correct Answer: AE

---

**QUESTION 3**

Your Profitability and Cost Management Cloud application contains a product dimension with 150 products. You\\ve received a dimension data file containing only a list of 10 new products that need to be added to the current product dimension. You use the file to import the new product members, using the Update Dimensions option in the Profitability Application Console.

Which result describes what will happen?

- A. The dimension update fails with errors and no changes are made to the product dimension.
- B. The 10 new members are appended to the bottom of the existing product dimension.
- C. The product dimension is replaced by the contents of the update file; only the 10 new members reside in the product dimension after the update.
- D. The 10 new members are merged into the product dimension and sorted alphabetically.

Correct Answer: C

---

## QUESTION 4

Assume that the proper data permissions have been assigned In Profitability and Cost Management. Which two actions can you perform In Smart View?
