QUESTION 1

What is true about the worker process in the Oracle Applications R12 environment?

A. When a worker runs a job for the first time, if the job fails, the manager automatically defers the job to retry at a later time.

B. When a worker runs a job for the third time, if the job fails, the status of the job stays at failed and the worker starts the next job.

C. As long as the total run time is less than 10 minutes, the manager defers the job to retry at the end of the current phase, even if that job failed the previous three times.

D. When a worker runs a job for the second time, if the job fails and the total run time is 15 minutes, then the status of the job stays at failed and the worker starts the next job.
