QUESTION 1

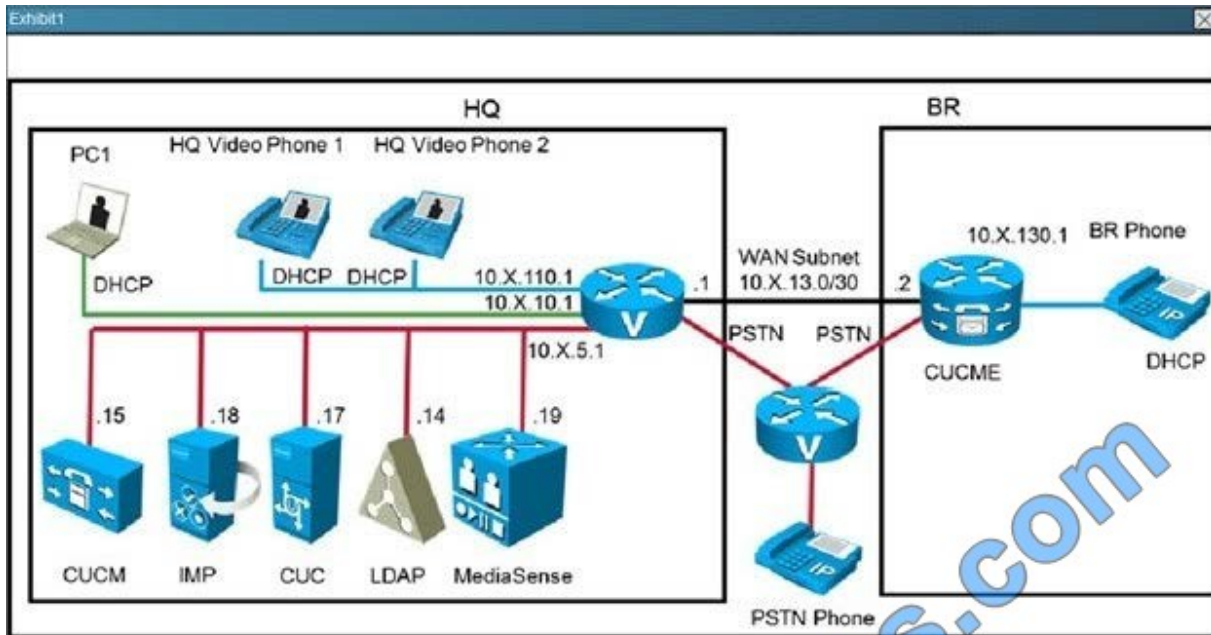

A system administrator needs to grant additional privileges to a single Cisco Unified Communications Manager user. How should the administrator accomplish this task?

- A. assign a new role to the user
- B. add the user to a new role
- C. assign an access control group to a new role
- D. add the user to a new access control group

Correct Answer: D

QUESTION 2

Use the router console to view the configuration and answer the question.

BR-Router

BR-Router#

www.lead4pass.com

Emergency calls from a Branch router phone is failing. From the router configuration information provided, why is this call failing?

- A. The dial-peer port assignment is incorrect

- B. the digit string prefix is missing
- C. The destination pattern is incorrect
- D. digit stripping needs to be performed

Correct Answer: C

The emergency dial peer configuration is shown below from the Branch routers:

```
!  
dial-peer voice 9112 pots  
  description Emergency PSTN Calls  
  destination-pattern 9112  
  port 0/0/0:15  
  prefix 112  
!  
dial-peer voice 999 pots  
  description Emergency PSTN Calls  
  destination-pattern 9999  
  port 0/0/0:15
```

Here we can see that 911 does not actually match the configured destination patterns.

QUESTION 3

Select and Place:

Drag the functionality on the left to the correct protocol on the right.

time synchronization	NTP
option 150	VLAN
virtual broadcast domain	TFTP
IP address management	DHCP
option 67	
MAC address management	

Correct Answer:

Drag the functionality on the left to the correct protocol on the right.

	time synchronization
	virtual broadcast domain
	option 150
	IP address management
option 67	
MAC address management	

QUESTION 4

The Cisco Unified Communications administrator has implemented Cisco IM and Presence for the company. An email was sent to all employees requesting that any malfunctioning behavior of the Cisco IM and Presence server be documented. Employees must navigate to which Cisco Jabber for Windows menu to report functionality issues?

- A. Show connection status
- B. Report a problem
- C. Show error notifications
- D. None, the system error report is sent automatically on error or crash
- E. Options

Correct Answer: B

QUESTION 5

A new user has successfully registered Cisco Jabber. Which option verifies that the Jabber client is connected to all appropriate back-end systems?

- A. Show Connection Status
- B. Report A Problem
- C. Advanced Settings
