QUESTION 1

An engineer is deploying a Cisco TelePresence Touch 10 controller for a Cisco TelePresence SX20. Which step is required as part of this process?

- A. Connect the cable from the Touch 8 controller to the Cisco TelePresence SX20.
- B. Hold the mute button down for 20 seconds while you power on the Touch 8 controller.
- C. Reboot the Cisco TelePresence SX20.
- D. Connect the Touch 10 controller to the power adapter and connect the adapter to the network.

Correct Answer: D

QUESTION 2

In the H.264 video codec, which type of video frame is sent when the remote side requests a fast picture update?

- A. I-frame
- B. P-frame
- C. B-frame
- D. C-frame

Correct Answer: A

QUESTION 3

Which Cisco video endpoints run on the Android operating system?

- A. EX-Series
- B. DX-Series
- C. C-Series
- D. MXP-Series

Correct Answer: B

QUESTION 4

What is the proper procedure to manually reset a password on a Cisco TelePresence EX Series endpoint running software version TC7?

- A. Use SSH to access the device and use the username "cisco" and the password "TANDBERG."

- B. Hold down the mute key on the touch display for 25 seconds and reset the password using the touch screen.
- C. When the device is powered down, hold down the power button until the power light blinks twice, then press the power button twice.
- D. Tap the power button four times within ten seconds and then use Telnet to connect to the device IP address.
- E. Tap the power button five times while the device is powered off and when it boots, use Telnet to connect to the device within 60 seconds.

Correct Answer: C

Resetting the EX90 to factory settings:

1.

Unplug the power cable.

2.

Replug the power cable.

3.

Press and hold the power button immediately when the green LED in the bottom left corner lights up. Hold until the LED turns off and on again after approximately 10 seconds.

4.

Release the power button, and press it twice within 2 seconds.

The TANDBERG EX90 is now reset to factory defaults.

A factory reset can also be performed by executing a single API command.

Log into the TANDBERG EX90 as admin using SSH (Secure Shell):

1.

Execute the API command: xCommand systemunit FactoryReset Confirm: Yes

2.

The system will now reboot

The procedure will reset or delete:

All passwords to factory default

All configurations to factory default, including SIP and H.323 settings

Local phonebook

All logs

DHCP-information

The procedure will not delete software release - and option keys.

QUESTION 5

An engineer is deploying a Cisco TelePresence Touch 8 controller for a Cisco TelePresence SX20. Which two steps are required as part of this process? (Choose two.)

- A. Connect the cable from the Touch 8 controller to the Cisco TelePresence SX20.
- B. Connect the Touch 8 controller to the power adapter and connect the adapter to the network.
- C. Connect the Touch 8 controller to the secondary network adapter on the Cisco TelePresence SX20.
- D. Reboot the Cisco TelePresence SX20.
- E. Hold the mute button down for 20 seconds while you power on the Touch 8 controller.

Correct Answer: BD
