-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

QUESTION 1

Which two feature keys are valid for both Cisco TelePresence MCU and Cisco TelePresence Server? (Choose two.)

- A. video firewall
- B. web conferencing
- C. encryption
- D. cluster support
- E. third-party interoperability

Correct Answer: CD

Some endpoints such as the Sony XG-80 and HG-90, and the TANDBERG Classic 6000s are unable to join conferences in which encryption is required, even when encryption is enabled on the endpoint. (TANDBERG is now part of Cisco.) The MCU allowed RC4-SHA encryption algorithms to be used for SSL connections, with no way to disable them. The MCU will no longer use RC4-SHA encryption algorithms. This issue is now resolved.
