QUESTION 1

Why is it important for an administrator to utilize the grid scan feature?

- A. To distribute the scan workload across multiple network discover servers
- B. To distribute the scan workload across the cloud servers
- C. To distribute the scan workload across multiple endpoint servers
- D. To distribute the scan workload across multiple detection servers

Correct Answer: D

If you plan to use the grid scanning feature to distribute the scanning workload across multiple detection servers, retain the default value (1)

QUESTION 2

Which action should a DLP administrator take to secure communications between an on-premises Enforce server and detection servers hosted in the Cloud?

- A. Use the built-in Symantec DLP certificate for the Enforce Server, and use the "sslkeytool" utility to create certificates for the detection servers.
- B. Use the built-in Symantec DLP certificate for both the Enforce server and the hosted detection servers.
- C. Set up a Virtual Private Network (VPN) for the Enforce server and the hosted detection servers.
- D. Use the "sslkeytool" utility to create certificates for the Enforce server and the hosted detection servers.

Correct Answer: A
