QUESTION 1

You manage the software and hardware retirement process for a customer. The customer does not use Microsoft Software Assurance.

The customer plans to retire desktop computers that have the following characteristics:

All hardware is more than three years old.

All desktop computers have Windows preinstalled.

All Microsoft Office licenses are purchased under a volume license agreement.

You need to recommend a solution for reusing licenses.

What should you recommend?

- A. Reuse none of the licenses.
- B. Purchase Software Assurance and reuse all licenses.
- C. Reuse all licenses for Windows.
- D. Reuse all licenses for Office.

Correct Answer: D

QUESTION 2

An organization is implementing a SAM program.

Some users have mobile phones and tablets that rarely connect to the corporate network. Users access software and resources from these devices. The organization must minimize licensing costs.

You need to ensure that hardware and software inventory data is collected on a consistent schedule for both on-premises servers and mobile devices.

Which tool should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

QUESTION 3

You use System Center Configuration Manager (ConfigMgr) to track software usage across all computers for an organization.

You must ensure that software usage data is delivered to specific users in Microsoft Excel format.

On the Monitoring page of the ConfigMgr console, which option should you select? To answer, select the appropriate

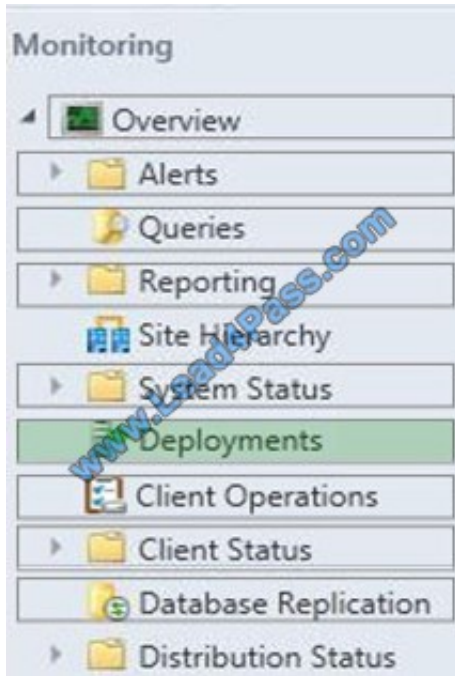

option in the answer area.

Hot Area:

Correct Answer:

QUESTION 4

An organization plans to implement a SAM program.

The program must meet the minimum requirements of the ISO 19770-1 specification and minimize administrative overhead.

You need to define the collection schedule for hardware and software inventory.

Which schedule interval should you implement for each inventory type? To answer, drag the appropriate intervals to the correct inventory types. Each interval may be used once, more than once, or not at all. You may need to drag the split bar

between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Inventory	Schedule
Hardware	Interval
Software	Interval

Correct Answer:

Inventory	Schedule
Hardware	Twice per year
Software	Annually

QUESTION 5

You are designing a SAM improvement program for a customer.

You must reduce license consumption for an engineering application.

The application is deployed to computers in every department where a user has requested the application. The strategy results in new, but unnecessary deployments of the application every month, exposing the company to additional license

costs.

You need to create a solution that meets the following requirements:

The solution must minimize unnecessary application deployment.

The solution must minimize calls to the help desk.

You need to recommend a deployment strategy for the engineering application by using System Center Configuration Manager (ConfigMgr).

Which three actions should you recommend be performed in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions	Answer Area
In ConfigMgr, configure an application for deployment.	
In ConfigMgr, configure a package and program for deployment.	
Publish the application to a device collection.	
Publish the application to a user collection.	
Enable the Software Metering feature.	⤵
Set the application Purpose setting to Required .	⤴
Set the application Purpose setting to Available .	
	⤴
	⤵

Correct Answer:

Actions

- In ConfigMgr, configure an application for deployment.
-
- Publish the application to a device collection.
-
- Enable the Software Metering feature.
- Set the application Purpose setting to **Required**.
-

Answer Area

- In ConfigMgr, configure a package and program for deployment.
- Publish the application to a user collection.
- Set the application Purpose setting to **Available**.
