QUESTION 1

You are leading a SAM improvement program for an organization that does not have a dedicated purchasing department.

Departments are experiencing delays in software orders. You must recommend improvements for purchasing processes. The solution has the following requirements:

Reduce delays in ordering new software licenses.

Ensure that the organization receives volume discount.

Minimize overhead required for generating purchase orders.

Which two actions should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Revoke software purchasing authority from department managers.
- B. Delegate purchasing to a single team member.
- C. Delegate purchasing to individual departments.
- D. Only allow software purchases through approved vendors.

Correct Answer: BD

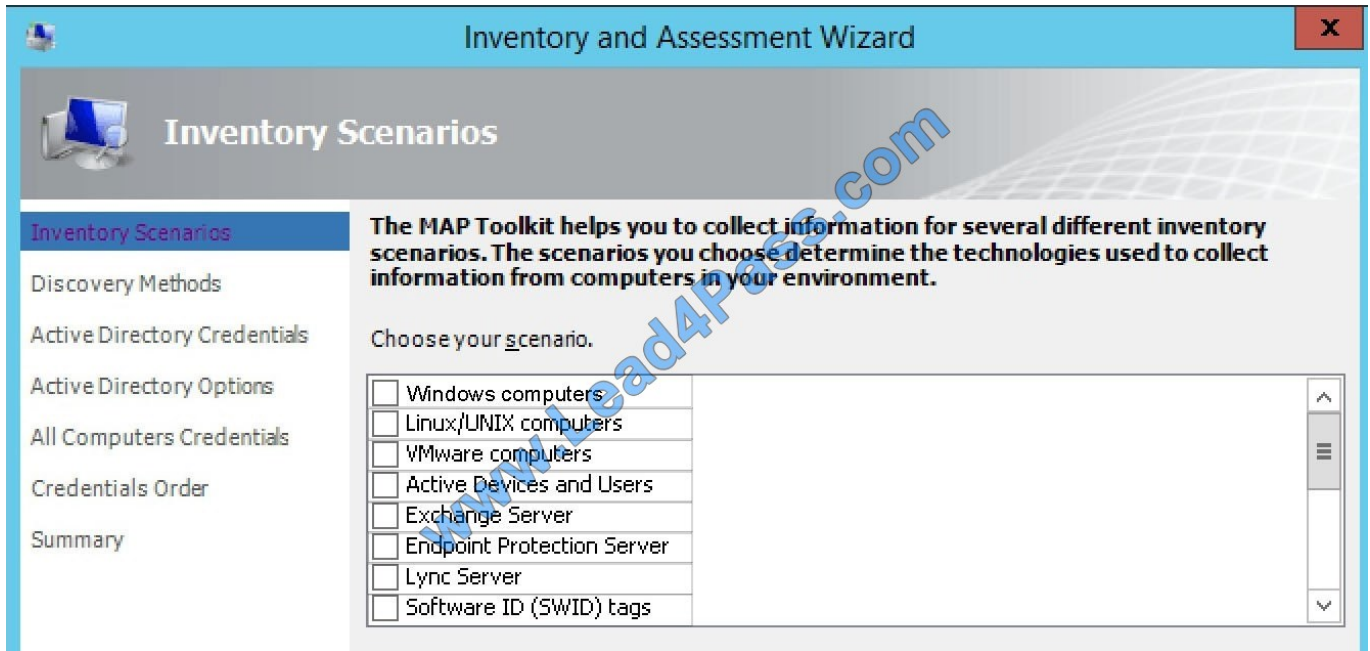

QUESTION 2

You plan to inventory software assets for an organization by using Windows Management Instrumentation (WMI). You must not install third-party add-ons.

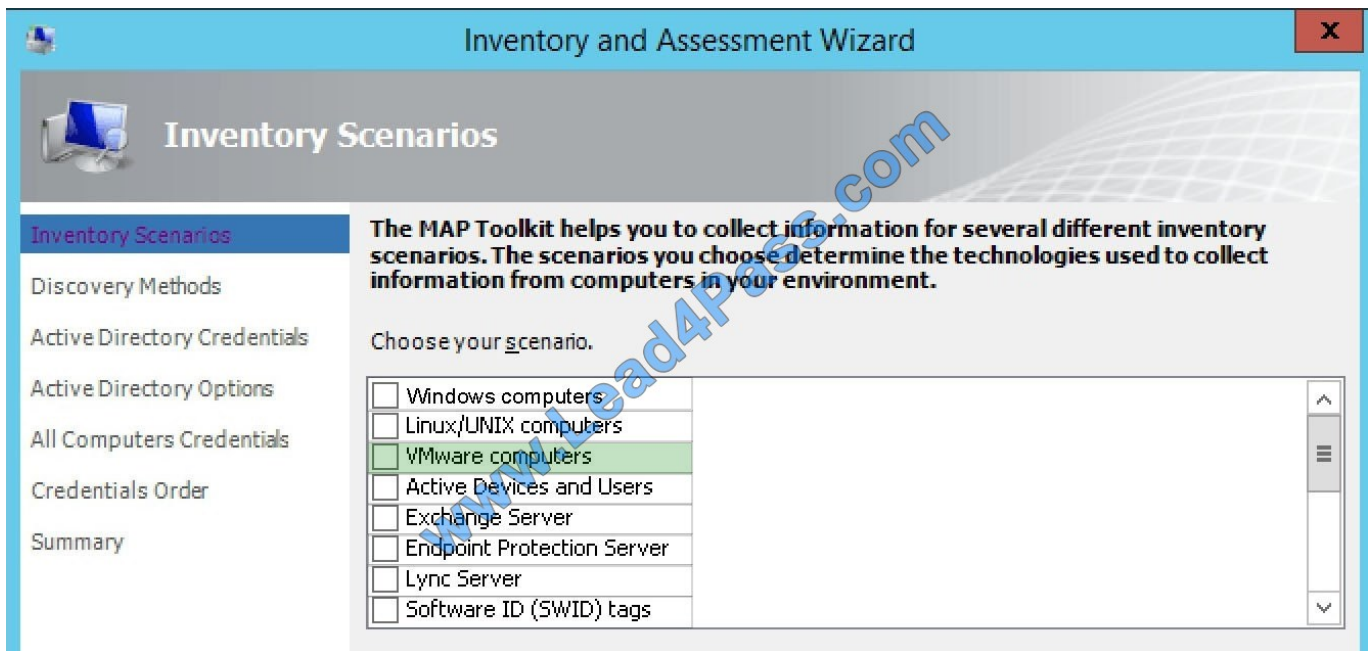

You need to list the physical computers that are running virtual machines.

On the Inventory Selection page of the Inventory and Assessment Wizard, which scenario should you select? To answer, select the appropriate scenario in the answer area.

Hot Area:

Correct Answer:

QUESTION 3

You are implementing a SAM improvement program for an organization.

SAM process owners lack tools for collecting inventory data and reporting details about software installations. You must improve the software lifecycle management process.

You need to recommend a tool that meets the following requirements:

supports Windows client and server operating systems includes inventory and reporting tools for installed applications

What should you use?

- A. Microsoft Intune
- B. System Center Operations Manager (OpsMgr)
- C. System Center Configuration Manager (ConfigMgr)
- D. Microsoft Active Directory Group Policy

Correct Answer: B

QUESTION 4

You are beginning a SAM engagement and are determining what tools will best fit your client's needs.

The solution must meet the following requirements:

Do not install anything on target machines.

Include Windows migration path options in any reports.

You need to create an updated software inventory.

What tool should you use?

- A. Microsoft Intune
- B. Microsoft Operations Management Suite (OMS)
- C. System Center Configuration Manager (ConfigMgr)
- D. Microsoft Assessment and Planning Toolkit (MAP)

Correct Answer: D

The Microsoft Assessment and Planning (MAP) Toolkit is an agentless inventory, assessment, and reporting tool that can securely assess IT environments for various platform migrations. Incorrect Answers:

A: The Intune client software contains the minimum software necessary to enroll the PC in Intune management. After a PC has been enrolled, the Intune client software then downloads the full client software required for PC management.

C: A Configuration Manager client computer is any computer in your organization that has the Configuration Manager client software installed. Computers serving as Configuration Manager site servers and site systems can also be installed as Configuration Manager client computers, in addition to any other servers in your organization where you install Configuration Manager client software.

Configuration Manager client software:

Runs almost entirely as services, processes or applications started from Configuration Manager services.

Runs from the client computer (as opposed to over the network).

Maintains history information for most function so the client computer (such as software and hardware inventory).

QUESTION 5

This question requires that you evaluate the underlined text to determine if it is correct.

An organization's Microsoft SAM Optimization Model (SOM) maturity level is Basic. The organization accounts for 20 percent of assets in a centralized repository. To reach the SOM Rationalized maturity level, the organization must have 50

percent of the assets in a centralized inventory.

Review the underlined text. If it makes the statement correct, select "No change is needed". If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change in needed.
- B. 75
- C. 96
- D. 100

Correct Answer: C
