QUESTION 1

During implementation, the team found that there is a notification controller exposed for an external service that marks the order as paid when notification is received. The notification URL is sent to the service together with the payment request and contains only the URL with orderID as the parameter.

What should the Architect recommend to the team in order to prevent the unauthorized usage of the controller to mark the orders as paid?

- A. Add a customer number in the callback URL and match the customer number against the one stored on the order.
- B. Add HTTPS restriction to the controller start node.
- C. Add an order token in the callback URL and match the token against the one stored on the order.
- D. Add a session attribute and validate it on the callback.

Correct Answer: C

QUESTION 2

An Architect to notify by the Business that order conversion dramatically dropped a few hours after go live. Further investigation points out that customers cannot proceed to checkout anymore. The Architect is aware that a custom inventory checks with a third-party API is enforced at the beginning of checkout, and that customers are redirected to the basket page when items are no longer in stock

Which tool can clearly confirm that the problem is indeed caused by the inventory check?

- A. Sales Dashboard from Reports and Dashboards
- B. Service Status from Business Manager
- C. Pipeline Profiler from Business Manager
- D. Realtime Report from Reports and Dashboards

Correct Answer: B

QUESTION 3

A client uses an external marketing tool to manage promotions and coupons for its multiple brands. They currently have only one brand on B2C Commerce and they get Import-ready feeds created by this tool on an SFTP location.

The marketing team completes the data preparation by the end of the work day.

How should the Architect handle this import?

- A. Create a Job and define three steps: one step uses ExecuteScriptModule to download the files from SFTP, end two standard steps to Import the promotion end coupons.
- B. Create a Job and define three steps: one standard step to download files from sftp end two steps that use Execute

Script Module to import the promotion end coupons.

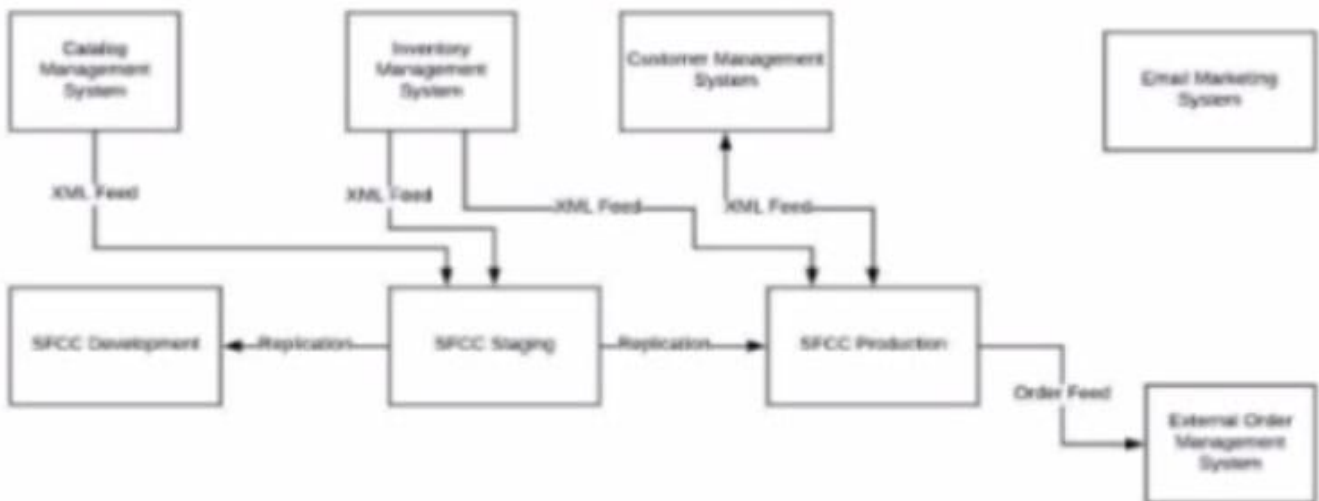

C. Create a job and define three steps: one custom step to download the files from SFTP, and two standard steps to import the promotion and coupons.

D. Create a Job and define three custom steps: download the files from SFTP, import promotions, import coupons

Correct Answer: C

QUESTION 4

The Client currently manages Customers, Inventory, and Product Information with dedicated backend systems as shown In the Systems Diagram below. There is also an external Email Marketing System (EMS) in place. The EMS needs order data to email recommendations to customers using an existing email campaign. These recommendations should be to only send for products that are in stock. The EMS has no access to the backend systems so this data should come from the Salesforce B2C Commerce site.

Which relationships should be added to the Systems Diagram to complete it and fulfill the requirements necessary for the email campaign?

- A. Order, Customer, and Product data should be exported from Staging. Inventory data should be exported from Production.
- B. Order, Customer, and Inventory data should be exported from Production. Product data should be exported from staging.
- C. Order and Customer data should be exported from Production. Product and Inventory data should be exported from Staging.
- D. Order and Inventory should be exported from Production. Products should be exported from Staging. Customers should be exported from the external Customer Management System.

Correct Answer: C

QUESTION 5

The client provided these business requirements:

1.

The B2C Commerce platform will integrate with the client's Order Management System (OMS).

2.

The OMS supports Integration us-no legacy RPC style SOAP services.

3.

The OMS is hosted on client's infrastructure.

What is the right cartridge folder to place the WSDL provided for the OMS service?

A. /cartridge/webreferences2

B. /cartridge/webreferences

C. /cartridge

D. /cartridge/services

Correct Answer: B
