QUESTION 1

The administrator at a company is required to configure Maximo silently using the reconfigurePae tool.

When running this tool which flags are used to define the application server and database middleware components? (Choose two.)

- A. -database
- B. -dbvendor
- C. -j2eevendor
- D. -databasetype
- E. -applicationserver

Correct Answer: AB

QUESTION 2

An administrator enables Admin Mode to carry out some administrative tasks and informs the users that some processes and services will be suspended or disabled.

Which of the following processes will those be? (Choose two.)

- A. All users are logged out
- B. LDAP server is suspended
- C. Event listeners are disabled
- D. CRON tasks are suspended
- E. Users can still log in to access non-system related applications

Correct Answer: CD

QUESTION 3

A company has configured several application servers to handle specific tasks using UI cluster, Cron cluster and Integration cluster. A requirement is that certain Cron tasks do not run on the UI cluster and the Integration cluster.

What is one way to accomplish this?

- A. Add `mxe.crontask.skip=[crontask name]` to maximo properties file.
- B. Add `mxe.crontask.donotrun=[crontask name]` to maximo properties file.
- C. Add `mxe.crontask.donotrun=[crontask name]` to the `crontask.properties` file.

D. On System Configuration -> Cron Task Setup, Select Action -> Reload Request, then uncheck "Run".

Correct Answer: D

QUESTION 4

What is the correct logical sequence of events for a Maximo installation?

- A. install Maximo, provision hardware, perform initial middleware configuration
- B. provision hardware, perform initial middleware configuration, install Maximo
- C. provision hardware, install Maximo, perform initial middleware configuration
- D. install Maximo, perform initial middleware configuration, create directory server users

Correct Answer: B
