QUESTION 1

A company loads data every night from several source systems into multiple tables in SAP HANA using complex transformation rules. The calculation view that joins these tables performs unexpectedly slow.

Which of the following could you investigate to be able to improve performance?

- A. Whether the joins and transformations of the tables can be moved to the data loading process of SAP BusinessObjects Data Services.
- B. Whether an InfoCube compression is running.
- C. Whether the calculation view needs to create large intermediate result sets.
- D. Whether savepoints are written during execution.

Correct Answer: AC

QUESTION 2

If you notice, Unique Constraint Error while loading flat file then

- A. Modify the table and remove primary key
- B. Modify column with different data type
- C. Convert column table to row table or vice versa
- D. Check the data for this Constraint and make sure there are no duplicate values

Correct Answer: D

QUESTION 3

You have made modifications to an information model within a delivery unit. You want to export the model to an SAP HANA target system.

In the Schema Mapping dialog, where do you define the target system schema?

- A. In the Authorization schema
- B. In the Authoring schema
- C. In the _SYS_BI schema
- D. In the Physical schema

Correct Answer: D

QUESTION 4

You discover row count discrepancies between source data and SAP HANA information models.

Which of the following can you investigate to find the source of the discrepancies?

- A. Client filtering in the Delivery unit view.
- B. Joins in information models.
- C. Memory leaks.
- D. Client filtering in SAP Landscape Transformation (SLT).

Correct Answer: BD

QUESTION 5

What type of calculation would you create to ensure the fastest calculation performance?

- A. A report variable in an SAP BusinessObjects reporting client
- B. A calculated column in an SAP HANA information model
- C. An input parameter in an SAP HANA information model
- D. An calculated measure in an SAP BusinessObjects universe

Correct Answer: B
