QUESTION 1

Which information does a Pre-Compiled Management Information Base (MIB) (PCM) file contain?

- A. Numbers for MIB variables
- B. Object identifier (OID) numbers
- C. Device variables mapped to database columns
- D. Information matching MIB Translation Files (MTFs) to agent names

Correct Answer: B

QUESTION 2

Which benefit results from rolling up data?

- A. Rolled-up data can be retained indefinitely.
- B. Data is consolidated to reduce database size.
- C. Occasional spikes and dips in gauge data are retained.
- D. Averaged rolled-up data values provide a better representation of performance.

Correct Answer: C

QUESTION 3

You physically disconnect a switch from the network. However, Live Exceptions does not indicate that the device is unavailable. Why?

- A. Live Exceptions is misconfigured.
- B. Live Exceptions must first poll the device and confirm its unavailability.
- C. Live Exceptions does not provide availability alarms for network elements such as switches.
- D. Live Exceptions will not show an availability alarm for the device until it becomes available again.

Correct Answer: D

QUESTION 4

As the administrator of a CA eHealth system, you have scheduled and successfully tested a database backup plan. You know that other files, such as all web users, report files, and poller.cfg, will be saved. When you reload the database, all of those files will also be loaded into their proper locations. During a database load, what happens to the web users that you created since the last backup?

- A. They will be retained.
- B. They will no longer be present.
- C. They will be available for reload if you ran the nhExportV\ebUser command.
- D. They will be automatically added to the backup files when the dbMaint command runs.

Correct Answer: B

QUESTION 5

You want to change delivery options without changing the underlying specification of a report. To do this, in Report Center, create a:

- A. Report View.
- B. Report Copy.
- C. Report Shortcut.
- D. Query Studio duplicate report.

Correct Answer: A
