QUESTION 1

What is the MOST important reason why test conditions should be understandable by stakeholders? [K2] 1 credit

A. They should be able to review the test conditions and provide feedback to the test analyst

B. They should be able to use them as a basis for designing test cases

C. They should be able to use them to establish traceability to requirements

D. Test documentation should always be understandable by all stakeholders

Correct Answer: A

QUESTION 2

How do user stories and testing relate in an agile project? [K2] 1 credit

A. User stories provide the flow of events which are to be used by the tester to define test cases.

B. User stories provide the user requirement and acceptance criteria being two important inputs for the tester.

C. The tester will typically gather and document the user stories, and use them for testing.

D. User stories drive the regression test.

Correct Answer: B

QUESTION 3

Which of the following statements is TRUE with respect to when the test analyst should become involved during different lifecycle models?

[K2] 1 credit

A. In a sequential V-model project the test analyst should start test analysis and design concurrently with coding

B. In Agile projects the test analyst should start test analysis and design concurrently with coding

C. In a sequential model project the test analyst should start test analysis and design concurrently with software design

D. In an embedded iterative model the test analyst should expect to be involved in the standard planning and design aspects

Correct Answer: D

QUESTION 4

A specification states: "If the fossil is Jurassic in origin then it must be catalogued under Mesozoic post

Triassic and cross referred to politic limestone.

If it is a tooth, then it must be catalogued under Dental remains. If the fossil is both Jurassic in origin and a

tooth it will be catalogued under Mesozoic post Triassic and cross referred to politic limestone only. "

The tester analyses this for decision table testing and finds the following conditions and actions: C1: Jurassic C2: tooth A1: Catalogue as Mesozoic post Triassic A2: Cross refer to politic limestone A3: Catalogue as Dental remains How many test cases will a collapsed decision table have? [K3] 2 credits

A. 2

B. 3

C. 4

D. 6

Correct Answer: B

QUESTION 5

Ken, an entrepreneur in Leeds finds the quality of the tea locally available so low, that he decides to research superior teas around the world. He decides to market, sell and distribute these superior teas via the web. His market strategy is to offer superior products on a well-designed website with graphics that are fast to load, has high availability, superior usability and fast response times.

The website will offer the following:

-An innovative interactive catalogue of teas, which not only enables customers to buy the product, but also enables them to provide feedback by rating the teas (which will influence his stock purchasing levels)

-

Provide the customer with the ability to use secure credit card transactions

-

Provide the customer to give general feedback

Ken selects an iterative model for the development of the prototypes. The team consists of three developers that are experienced in web development. Ken, although he doesn\\'t have technical skillset, is concerned with quality. He doesn\\'t believe a lot of documentation is necessary and he wants the website to be completed quickly.

The test basis contains the following:

-Story boards that show the information flow and page links through the site

-HTML pages developed to date.

-A statement of non-functional requirements.

With the strategy taking shape, Ken asks your advice on the specific testing techniques that should be used to complete the required testing, bearing in mind the nature of the application and the nature of Ken\\'s overall objectives.

We now make the assumption that in the scenario described as above, exploratory testing was selected as being the main test technique. You have now been given the task of specifying, executing and recording the exploratory test sessions.

Select TWO of the options below to define what you will typically use for specifying, executing and recording the sessions?

[K3] 2 credits

A. Record the results in email and send the email to the test manager.

B. Use external testers on the team to provide a new approach and fresh view to the testing effort.

C. Create test charters for planned test session.

D. Use debriefing sessions with stakeholders and other testers to discuss the findings and new risks identified.

E. Define concrete test cases to be executed by the developers.

Correct Answer: CD
