QUESTION 1

Identify the THREE types of formal peer reviews that can be recognized.

- A. Inspection
- B. Management review
- C. Walkthrough
- D. Audit
- E. Technical review
- F. Informal review
- G. Assessment

Correct Answer: ACE

QUESTION 2

What is the main reason why reviews are especially beneficial in the above-mentioned scenario?

- A. They ensure a common understanding of the product.
- B. They find defects early.
- C. They enhance project communication.
- D. They can be performed without exercising the code.

Correct Answer: D

QUESTION 3

As part of the test strategy, entry and exit criteria will be defined for each test level.

Which is NOT a valid reason for using entry and exit criteria?

- A. The expectation is that development testing is not adequate.
- B. Exit criteria are used to decide on when to stop testing.
- C. Entry and exit criteria are a principal way for getting adequate resources.
- D. Using entry and exit criteria will prevent software that is not or poorly tested from going to the next test level.

Correct Answer: C

QUESTION 4

Which of the following is a benefit of independent testing?

- A. Code cannot be released into production until independent testing is complete.
- B. Testing is isolated from development.
- C. Independent testers find different defects and are unbiased.
- D. Developers do not have to take as much responsibility for quality.

Correct Answer: C

QUESTION 5

IEEE 1028 also defines "management review" as a type of review.

What is the main purpose of a management review?

- A. Align technical concepts during the design phase
- B. Establish a common understanding of requirements
- C. Provide independent evaluation of compliance to processes, regulations, standards etc.
- D. To monitor progress, assess the status of a project, and make decisions about future actions

Correct Answer: D
