**QUESTION 1**

Isilon SmartLock Compliance clock has drifted from the system clock.

How can the difference between compliance and system clocks be corrected?

- A. Compliance clock drifts towards system clock automatically
- B. Compliance clock drift correction is not allowed
- C. Administrative user "root" can manually adjust the compliance clock
- D. Administrative user "compadmin" can manually adjust the compliance clock

Correct Answer: A

---

**QUESTION 2**

An organization has a five-node standard Isilon cluster. Due to regulatory requirements, they need to build a compliance mode cluster using the existing production hardware.

How can this be achieved?

- A. Perform an in-place upgrade of the standard cluster to a compliance mode cluster
- B. SmartFail two of the nodes and use them to build a new compliance mode cluster
- C. Add the SmartLock license to the existing cluster and create some compliance mode directories
- D. Purchase a new cluster as there is no way to upgrade an existing cluster or reformat nodes

Correct Answer: A

---

**QUESTION 3**

A storage administrator is using an Isilon cluster with a large number of clients accessing the same data. Which data layout is best suited for this workflow?

- A. Concurrency
- B. Random
- C. Streaming
- D. Mixed

Correct Answer: A

---

## QUESTION 4

Which type of information does the Isilon isi status command provide?

- A. Job engine and critical alerts
- B. Protocol and node statistics
- C. Drive replacement and drive statistics
- D. Drive statistics and hardware condition

Correct Answer: A

---

## QUESTION 5

When creating an SMB share on the Isilon cluster, what is the effect of selecting the "Apply Windows Default ACLs"?

- A. An ACL with the equivalent of UNIX 700 mode bit permissions is created for any directory automatically created
- B. File permissions are automatically set to be the same as the share permissions
- C. Share permissions\ configuration is no longer required as it too will be set to the default values
- D. Ownership of all files in the directory will be set to the default user's SID

Correct Answer: A
