QUESTION 1

When teams use relative estimating, an important outcome of this technique is:

A. Clarity from discussing discrepancies in estimating to uncover assumptions

B. Consensus with the tech lead on accurate estimates

C. Eliminating outliers and adopting the most common estimate

D. Increased velocity by agreeing on higher estimate values

Correct Answer: A

QUESTION 2

A team has been delivering a steady stream of small value increments and has completed several solution components, with some still remaining. The solution owner examines the reactions to the delivered components from customers, and decides that the need has been met and the remaining potential components won\\'t deliver enough additional value to justify doing them. The solution owner will:

A. Request Strategy Horizon input about what action to take

B. Accept the work is complete and cancel remaining work

C. Fully document the working initiative

D. Ask the team to come up with new, more valuable, solution components for the initiative

Correct Answer: A

QUESTION 3

While using Kano Analysis to determine what features to include in the MVP, the delivery team decides to include characteristics which if omitted will cause intense dissatisfaction. A team member indicates that these are referred to as:

A. Performance characteristics

B. Threshold characteristics

C. Minimum characteristics

D. Excitement characteristics

Correct Answer: B
