QUESTION 1

You have configured your G Suite account on the scheduled release track to provide additional time to prepare for new product releases and determine how they will impact your users. There are some new features on the latest roadmap that your director needs you to test as soon as they become generally available without changing the release track for the entire organization.

What should you do?

- A. Create a new OU and turn on the rapid release track just for this OU.
- B. Create a new Google Group with test users and enable the rapid release track.
- C. Establish a separate Dev environment, and set it to rapid release.
- D. Ask Google for a demo account with beta access to the new features.

Correct Answer: A

QUESTION 2

Your company has just received a shipment of ten Chromebooks to be deployed across the company, four of which will be used by remote employees. In order to prepare them for use, you need to register them in G Suite.

What should you do?

- A. Turn on the Chromebook and press Ctrl+Alt+E at the login screen to begin enterprise enrollment.
- B. In Chrome Management | Device Settings, enable Forced Re-enrollment for all devices.
- C. Turn on the chromebook and log in as a Chrome Device admin. Press Ctrl+Alt+E to begin enterprise enrollment.
- D. Instruct the employees to log in to the Chromebook. Upon login, the auto enrollment process will begin.

Correct Answer: A

QUESTION 3

Your company is in the process of deploying Google Drive Enterprise for your sales organization. You have discovered that there are many unmanaged accounts across your domain. Your security team wants to manage these accounts moving forward.

What should you do?

- A. Disable access to all "Other Services" in the G Suite Admin Console.
- B. Use the Transfer Tool for unmanaged accounts to invite users into the domain.

- C. Use the Data Migration Service to transfer the data to a managed account.
- D. Open a support ticket to have Google transfer unmanaged accounts into your domain.

Correct Answer: C

QUESTION 4

Security and Compliance has identified that data is being leaked through a third-party application connected to G Suite. You want to investigate using an audit log.

What log should you use?

- A. Admin audit log
- B. SAML audit log
- C. Drive usage audit log
- D. OAuth Token audit log

Correct Answer: D

QUESTION 5

After making a recent migration to G Suite, you updated your Google Cloud Directory Sync configuration to synchronize the global address list. Users are now seeing duplicate contacts in their global directory in G Suite. You need to resolve this issue.

What should you do?

- A. Train users to use G Suite's merge contacts feature.
- B. Enable directory contact deduplication in the G Suite Admin panel.
- C. Update shared contact search rules to exclude internal users.
- D. Create a new global directory, and delete the original.

Correct Answer: A
