QUESTION 4

Your organization deployed G Suite Enterprise within the last year, with the support of a partner. The deployment was conducted in three stages: Core IT, Google Guides, and full organization. You have been tasked with developing a targeted ongoing adoption plan for your G Suite organization.

What should you do?

A. Use Google Guides to deliver ad-hoc training to all of their co-workers and reports.

B. Use Work Insights to gather adoption metrics and target your training exercises.

C. Use Reports APIs to gather adoption metrics and Gmail APIs to deliver training content directly.

D. Use a script to monitor Email attachment types and target users that aren\\'t using Drive sharing.

Correct Answer: A

QUESTION 5

Your organization has been on G Suite Enterprise for one year. Recently, an admin turned on public link sharing for Drive files without permission from security. Your CTO wants to get better insight into changes that are made to the G Suite environment. The chief security officer wants that data brought into your existing SIEM system.

What are two ways you should accomplish this? (Choose two.)

A. Use the Data Export Tool to export admin audit data to your existing SIEM system

B. Use Apps Script and the Reports API to export admin audit data to your existing SIEM system.

C. Use Apps Script and the Reports API to export drive audit data to the existing SIEM system

D. Use the BigQuery export to send admin audit data to the existing SIEM system via custom code

E. Use the BigQuery export to send drive audit data to the existing SIEM system via custom code.

Correct Answer: CE
