**QUESTION 9**

As part of a client's configuration requirements, they have indicated that they want to create divisions by

Line of Business within HCM Cloud.

After creating them in which two ways can you associate workers with a specific division? (Choose two.)

- A. Division is a delivered field on a position. If you are using Positions, when you associate a worker with a position, they will be associated with the division tied to that position.
- B. You configure and deploy an assignment descriptive flexfield that has a table value set that references the Division object. When you complete a worker's assignment, you select the appropriate division through that flexfield segment.
- C. Division is a delivered field on the worker assignment so when a worker is hired, the correct division would be selected by the user entering the information.
- D. You have configured an Organization Tree, listing the hierarchy of your Legal Entities, Divisions, Business Units, and Departments. You associate a worker with a department that falls within a division to associate the worker with that division.

Correct Answer: AC

As part of a client's configuration requirements, they can create divisions by Line of Business within HCM Cloud, and associate workers with a specific division by using the Division field on a position (if they are using positions) or the Division field on the worker assignment when a worker is hired.
