QUESTION 1

When does the ProxySG establish an Schannel?

- A. When a client request is first received
- B. When the client sends an NTLM type 2 message to ProxySG
- C. When IWA authentication fails
- D. When the client sends an NTLM type 3 message to the ProxySG

Correct Answer: B

QUESTION 2

When the ProxySG processes installed policy as part of a client transaction, how does it handle a rule that contains a syntax error?

- A. The ProxySG skips the rule and does not change the accept or deny status of the transaction
- B. The ProxySG changes the transaction status to Deny and makes an entry in the event log
- C. The ProxySG stops processing of the layer containing the rule and continues with the next layer, if any
- D. This cannot happen

Correct Answer: B

QUESTION 3

Why is Kerberos performance better than NTLM?

- A. It uses less encryption
- B. None of these answers
- C. Only two round trips are required between the browser and an authentication server
- D. It works with later versions of Microsoft Windows

Correct Answer: B

Reference: https://origin-symwisedownload.symantec.com/resources/webguides/proxysg/certification/authentication_webguide/Content/Topics/Authentication/Concepts/IWA_auth_protocols_co.htm

QUESTION 4

What would happen if the ProxySG did not use surrogate credentials to authenticate users who use transparent proxy connections?

- A. They would not be able to authenticate to the ProxySG
- B. The ProxySG does not need to use surrogate credentials to authenticate users who use transparent proxy connections
- C. They would have to reauthenticate for each domain that they access

Correct Answer: C

Reference: https://origin-symwisedownload.symantec.com/resources/webguides/proxysg/6.6/reverse_proxy_webguide/Content/Topics/Tasks/Authentication/surrogate_credentials_co.htm

QUESTION 5

Under what conditions does a policy-driven trace generate a trace?

- A. Only if WebPulse is enabled
- B. Only if a match is registered
- C. Only if no global policy trace is enabled
- D. Only if the rule to which it is associated is triggered

Correct Answer: D

QUESTION 6

By default, HTTP traffic that is logged is recorded to which log facility?

- A. bcreportermain_v1
- B. main
- C. elf
- D. http

Correct Answer: B

Reference: https://wikileaks.org/spyfiles/files/0/241_BLUECOAT-SGOS_CMG_5.1.4_9.pdf (p.7)

QUESTION 7

Name three methods by which client configuration can be performed in an explicit ProxySG deployment. (Choose three.)

- A. Configure the user agent to point to the IP address or hostname of the ProxySG

- B. Configure the user agent to point to the location of a PAC file
- C. Configure the user agent to use WPAD
- D. Use Symantec Management Center to configure the user agent
- E. Configure forwarding hosts on the ProxySG

Correct Answer: ABC

QUESTION 8

What stops further rule processing in a layer?

- A. When the final rule on the layer is reached
- B. When two rules match
- C. When a later rule contradicts an earlier rule
- D. The first rule in the layer that matches

Correct Answer: D

QUESTION 9

Where does ProxySG object caching usually result in the most bandwidth savings?

- A. On the server side
- B. On the client side

Correct Answer: B

Reference: https://wikileaks.org/spyfiles/document/bluecoat/259_blue-coat-systems-proxysg-applianceconfiguration-and/259_blue-coat-systems-proxysg-appliance-configuration-and.pdf (46)

QUESTION 10

What is one drawback to using apparent data type to detect the file type?

- A. Presents a security risk
- B. Less accurate than HTTP content type detection
- C. None of these answers

D. Most resource-intensive

Correct Answer: D

QUESTION 11

What is typically the biggest load on CPU?

- A. MD5
- B. Emulating certificates
- C. Using RSA
- D. SHA-2

Correct Answer: C

QUESTION 12

Where would you look to find a record of all of configuration changes, as well as which administrator account committed those changes?

- A. Statistics > Advanced
- B. Active sessions
- C. Event log
- D. Access log

Correct Answer: C

QUESTION 13

When must BCAA be used?

- A. When you need to establish more than one Schannel to increase performance
- B. When the ProxySG cannot directly use APIs that require traditional operating systems
- C. When more than one ProxySG are deployed
- D. When Basic credentials are used

Correct Answer: B
